## Acknowledgements

The research described in this survey was supported by grants from the Faculty of Medical Sciences of the University of Nijmegen, by grants from the Netherlands Organization for the Advancement of Science (NWO), and by a collaborative research grant from NATO. The permission to use figures of, among others, Peter van Mier, Bernd Fritzsche, Alan Roberts, Joel Glover, Agustín González, Jessie Gribnau, Teresa Cabana and George Martin, and the excellent technical support by Roelie de Boer-van Huizen are gratefully acknowledged. The idea for this survey arose during a symposium entitled “Development, plasticity and regeneration of descending supraspinal pathways,” held at the European Neuroscience Association Annual Meeting in Vienna (September 6, 1994). I am most grateful to George Martin for his encouragement to write this, hopefully not too dated, survey.

# Contents

<b>1</b>	<b>Introduction.....</b>	<b>1</b>
1.1	Phylogenetic Constancy of Descending Supraspinal Pathways.....	1
1.2	Attractive Animal Models for Studies on the Development of Motor Systems.....	2
1.3	Axonal Pathfinding.....	2
1.4	Regenerative Capacity of Descending Supraspinal Pathways.....	3
1.5	Scope of the Present Review.....	4
<b>2</b>	<b>Materials and Techniques.....</b>	<b>5</b>
2.1	Cytoarchitectonic Analysis.....	5
2.2	Immunohistochemical Procedures.....	5
2.3	Tract-Tracing Studies.....	6
2.4	[3H]-Thymidine Studies.....	7
<b>3</b>	<b>Descending Pathways to the Spinal Cord in Tetrapods: A Brief Outline.....</b>	<b>9</b>
<b>4</b>	<b>Staging Systems.....</b>	<b>15</b>
4.1	Systems for Staging Amphibian Embryos.....	15
4.2	Staging Chicken Embryos.....	18
4.3	Systems for Staging the Prenatal and Postnatal Development of Opossums.....	20
4.4	Systems for Staging Rodent and Primate Embryos....	23

<b>5</b>	<b>Development of Descending Supraspinal Pathways in Amphibians.....</b>	<b>27</b>
5.1	Development and Regenerative Capacity of the Motor System in Urodeles .....	27
5.2	Development of Anurans: Two Motor Systems.....	32
5.3	Neurogenesis of Brainstem Motor Nuclei: Birthday Data in <i>Xenopus laevis</i> .....	37
5.4	Tract-Tracing Data in Anurans .....	40
5.4.1	Retrograde Tracer Data .....	40
5.4.2	The Ingrowth of Reticulospinal, Monoaminergic and Rubrospinal Fibers .....	47
5.4.3	Regenerative Capacity of Descending Brainstem Pathways.....	52
<b>6</b>	<b>Development of Descending Supraspinal Pathways in Birds .....</b>	<b>55</b>
6.1	Some Notes on the Development of the Avian Brain Stem and Spinal Cord.....	55
6.2	Birthday Studies in Chickens .....	57
6.3	Tract-Tracing Data in the Chicken Embryo.....	57
6.3.1	Retrograde Tracer Data .....	57
6.3.2	The Ingrowth and Synaptogenesis of Reticulospinal and Monoaminergic Fibers .....	62
6.3.3	Regenerative Capacity of Descending Brainstem Pathways.....	64
<b>7</b>	<b>Development of Descending Supraspinal Pathways In Opossums .....</b>	<b>67</b>
7.1	Some Notes on the Development of the CNS in Opossums .....	67
7.2	Birthday Studies .....	68
7.3	Tract-Tracing Data in Opossums.....	68
7.3.1	Retrograde Tracer Data .....	69
7.3.2	The Ingrowth of Reticulospinal, Monoaminergic and Rubrospinal Fibers .....	71
7.3.3	Regenerative Capacity of Descending Brainstem Pathways.....	74
7.3.4	Development of Corticospinal Projections in Opossums .....	76

<b>8</b>	<b>Development of Descending Supraspinal Pathways in Placental Animals .....</b>	<b>79</b>
8.1	Initial Tract Formation.....	79
8.2	Tract-Tracing Data in Rodents .....	79
8.3	Tract-Tracing Data in Cats.....	88
8.4	Tract-Tracing Data in Primates .....	91
<b>9</b>	<b>Development of Descending Supraspinal Pathways in Man .....</b>	<b>95</b>
9.1	Some Notes on the Development of the Human Spinal Cord .....	95
9.2	Development of Descending Brainstem Pathways in Man .....	97
9.3	Development of Corticospinal Projections in Man ...	100
<b>10</b>	<b>Concluding Remarks .....</b>	<b>103</b>
10.1	The Outgrowth of Descending Supraspinal Pathways Is the Result of a Coordinated Program .....	103
10.2	The Pattern of Early Descending Axonal Tracts Is Similar in All Vertebrate Groups .....	104
10.3	The Formation of Descending Supraspinal Pathways Occurs According to a Developmental Sequence ....	106
10.4	The Earliest Descending Supraspinal Fibers Arrive in a Rather Immature Spinal Cord .....	107
10.5	The Regenerative Capacity of Descending Supraspinal Pathways Depends on Their Developmental Stage ...	110
	<b>Summary .....</b>	<b>113</b>
	<b>References .....</b>	<b>117</b>
	<b>Subject Index.....</b>	<b>143</b>
