

Sequence-Specific Fluorescence Detection of DNA by Polyamide-Thiazole Orange Conjugates

Eric J. Fechter, Bogdan Olenyuk, and Peter B. Dervan*

Supporting Information

Supplemental Figure 1. Representative DNA-binding isotherms for (a) **2**, (b) **3**, and (c) **4**.

Supplemental Figure 2. Representative Boltzman distributions of resolved topoisomers for pUC19 equilibrated with (a) **1**, (b) **3**, and (c) no ligand.
