In the right place at the right time: visualizing and understanding mRNA localization

Adina R. Buxbaum, Gal Haimovich and Robert H. Singer

Nature Reviews Molecular Cell Biology **16**, 95–109 (2015)

In the original article, the two reference citations in the following sentence were incorrect: "... conversely, only 600–800 mammalian RBPs have been recognized so far (REFS 88, 89; see the RBP database) ...". The correct references have now been added to the online version of this article as references 177 and 178.
