The AGREE Reporting Checklist: a tool to improve reporting of clinical practice guidelines

OPEN ACCESS

This Research Methods and Reporting article (*BMJ* 2016;352:i1152, doi:10.1136/bmj.i1152) was mistakenly published without an open access licence initially online and in

the May 2016 academic print issue, and should have been published under the CC BY NC licence. The online version has since been corrected.
