PARAPSYCHOLOGY FOUNDATION, INC.

PO Box 1562, New York, NY, 10021 0043,
United States of America
Tel: (1) 212 628 1550
Fax: (1) 212 628 1559
Email: office@parapsychology.org
Website: www.parapsychology.org
Contact: Vice President

Established in 1951, the Parapsychology Foundation acts as a clearinghouse for information about parapsychology. Essentially an administrative organization, it maintains one of the largest libraries to do with parapsychology, the Eileen J Garret Library, as well as supporting various programmes that include the library, a grant and scholarship programme, a conference and lecture programme, and a speaker's bureau and publishing programme.

Eileen J Garrett Scholarship

Subjects: Parapsychology.

Purpose: To assist students attending an accredited college or university in pursuing the academic study of the science of parapsychology.

Eligibility: Open to nationals of any country.

Level of Study: Unrestricted

Type: Scholarship

Value: US\$3,000

Length of Study: 1 year

Frequency: Annual

Study Establishment: An accredited college or university

Country of Study: Any country

No. of awards offered: 1

Application Procedure: Applicants must submit samples of writings on the subject with an application form from the Foundation. Letters of reference are required from three individuals, familiar with the applicant's work and/or studies in parapsychology.

Closing Date: July 15th

For further information contact:

Email: office@parapsychology.org

Parapsychology Foundation Grant

Subjects: Parapsychology.

Purpose: To support original study, research and experiments in parapsychology.

Eligibility: Open to nationals of any country.

Level of Study: Unrestricted

Type: Grant

Value: Up to US\$3,000

Length of Study: 1 year

Frequency: Annual

Country of Study: Any country

No. of awards offered: 10

Application Procedure: Applicants must contact the organization for details.

Closing Date: July 15th

Additional Information: Funding for the Foundation Grant is limited but applicants are still welcome to submit a proposal on the off chance that the programme will be reviewed.

PARIS SCHOOL OF INTERNATIONAL AFFAIRS (PSIA)

27, rue Saint-Guillaume, Paris, 75007,
France
Tel: (33) 1 4549 5050
Website: www.sciencespo.fr/psia/

In keeping with Sciences Po's centennial tradition of excellence, PSIA offers a cutting-edge education to tomorrow's leaders in international affairs. With 1300 students coming from 100 countries, taught by world-renowned professors and practitioners, PSIA rises as a vibrant

global pulse in Europe and a primary platform for global debate, rooted in the academy.

KSP Excellence Scholarship

Purpose: The Kuwait Program at Sciences Po offers excellence scholarships to students with an interest in the Middle East who are admitted to PSIA for the current year intake on the programs listed at the website.

Eligibility: These scholarships are awarded on a competitive basis, based on the candidate's excellent academic record and proposed project at Sciences Po.

Type: Scholarship

Value: Multiple scholarships of up to €10,000 per year will be awarded for the 2 years of study

Frequency: Annual

Application Procedure: Please visit www.sciencespo.fr/psia/kuwait-program for detailed information.

Additional Information: The Kuwait Program at Sciences Po (KSP) is a partnership between the Kuwait Foundation for the Advancement of Sciences (KFAS) and Sciences Po, based at the Paris School of International Affairs.

PARKER B FRANCIS FELLOWSHIP PROGRAM

Contact: Ms Deborah Snapp

A private foundation dedicated to creating current and future generations of well-rounded individuals who are creative, life-long learners, striving to achieve their fullest potential within their communities.

Parker B Francis Fellowship Program

Subjects: Pulmonary research.

Purpose: To support rising stars in the field of pulmonary research as they make the transition from postdoctoral trainees to independent researchers.

Eligibility: Ideally, open to applicants with between 2 and 7 years of postdoctoral research experience, published articles in leading journals and a clear trajectory in pulmonary research.

Level of Study: Postdoctorate

Type: Fellowship

Value: The total budget is limited to US\$50,000 for the 1st year, US\$52,000 for the 2nd and US\$54,000 for the 3rd. These totals include a stipend plus fringe benefits and may include travel costs to a maximum of US\$2,000. Direct research project costs and indirect costs are not covered

Length of Study: 3 years

Frequency: Annual

Country of Study: United States of America, Canada or Mexico

No. of awards offered: 15

Application Procedure: Applicants must submit a completed application form, biographical sketch and a brief statement of their career goals. They must also provide a letter from their mentor evaluating the applicant's qualifications and indicating their career goals in the field of pulmonary research, three letters of recommendation, a summary of the past training record of the primary mentor (including names of former trainees and their current positions, sources and level of support with grants pending and the extent of equipment and space for research training available to the primary mentor and trainee) and signatures of the primary mentor, department or division head and the fiscal officer responsible for administering the grant on the face page.

THE PAUL & DAISY SOROS FELLOWSHIPS FOR NEW AMERICANS

224 West 57th St, New York, NY, 10019, United States of America
Tel: (1) 212 547 6926
Fax: (1) 212 548 4623
Email: pdsoros_fellows@sorosny.org
Website: www.pdsoros.org

The Soros Foundation was founded by Hungarian immigrants and American philanthropists in December 1997 with a charitable trust of \$50,000,000 dollars. Their reasons for doing so were several. They wished to give back to the country that had afforded them and their children such great opportunities and felt a fellowship programme was an appropriate vehicle.

Paul and Daisy Soros Fellowships for New Americans

Subjects: Engineering, medicine, law, social work, humanities, social sciences, sciences, fine arts and performing arts.

Purpose: To provide opportunities for continuing generations of able and accomplished New Americans to achieve leadership in their chosen fields.

Eligibility: Open to immigrants, who have been naturalized as citizens of US or whose parents are both naturalized citizens. Applicants must either have a Bachelor's degree or be in their final year of undergraduate study and must not be older than 30 years of age as of November 1st.

Level of Study: Doctorate, Graduate, Postgraduate

Type: Fellowships

Value: US\$25,000 (paid in two installments) and a tuition grant of one-half the tuition cost of the US graduate programme attended by the Fellow (up to \$20,000 per academic year)

Length of Study: 2 years

Frequency: Annual

Study Establishment: Any accredited graduate programme

Country of Study: United States of America

Application Procedure: Applicants must submit a completed online application form, 2 essays on specified topics, curriculum vitae of 1–2 pages, 3 recommendation letters, transcripts and provide a photocopy of the test scores of Graduate Management Admission Test, MCAT, Graduate Record Examination and LSAT.

Closing Date: November 1st

Funding: Trusts

No. of awards given last year: 30

No. of applicants last year: 890

Additional Information: Individuals are expected to retain loyalty and a sense of commitment to their country of origin as well as to the US, but it is intended to support individuals who will continue to regard the US as their principal residence and focus of national identity.

The Paul & Daisy Soros Fellowship for New Americans

Subjects: All subjects.

Purpose: To provide opportunities for continuing generations of able and accomplished New Americans to achieve leadership in their chosen fields.

Eligibility: Open to New Americans: immigrants (Green Card Holders) naturalized US citizens and/or children of 2 naturalized parents.

Level of Study: Postdoctorate

Type: Fellowship

Value: US\$25,000 up to \$20,000 in tuition support for each year

Length of Study: 2 years

Study Establishment: Any accredited graduate University in the US

Country of Study: United States of America

Application Procedure: Apply online.

PEN Writer's Emergency Fund

Subjects: Professional writers in acute, emergency financial crisis.
Purpose: To assist professional published writers facing emergency situations.
Eligibility: Open to published professional writers and produced playwrights who have a traceable record of writing and publication.
Level of Study: Unrestricted
Type: Grant
Value: Up to US\$2,000
Frequency: Dependent on funds available
Application Procedure: Applicants must submit an application consisting of a two-page form, published writing samples, documentation of financial emergency, including bills, etc. and a professional curriculum vitae.
Closing Date: March 15th
Funding: Private
No. of awards given last year: 40
Additional Information: A separate fund exists for writers and editors with AIDS who are in need of emergency assistance. The funds are not for research purposes, to enable writers to complete unfinished projects, or to fund writing publications or organizations. Grants and loans are for unexpected emergencies only, for the support of working writers. PEN American Center also offers numerous annual awards to published writers to recognize distinguished writing, editing and translation.

The Penn Humanities Forum promotes interdisciplinary collaboration across University of Pennsylvania departments and schools and between the University and the Philadelphia region. Each year, a broad topic sets the theme for a research seminar for resident and visiting scholars, courses and public events involving Philadelphia's cultural institutions.

Mellon Postdoctoral Fellowships in the Humanities

Subjects: Humanities.

Purpose: To support research by untenured junior scholars.

Eligibility: Open to junior scholars who, at the time of application, have received a PhD (degree must be in hand no later than December of the year preceding the fellowship) but have not held it for more than 8 years nor been granted tenure. Applicants may not be tenured during the year of the fellowship. Research proposals must relate to the Forum's annual topic of study and are invited in all areas of humanistic studies, except educational curriculum-building and the performing arts. Other requirements include residency at the University of Pennsylvania and the teaching of one freshman seminar in each of the two semesters.

Level of Study: Postdoctorate

Type: Fellowship

Value: The initial stipend is \$61,060 with an additional \$2,000 available for research and travel expenses. Health insurance and a one-time moving allowance of \$2,000 are also provided

Length of Study: 1 academic year, non-renewable

Frequency: Annual

Study Establishment: The University of Pennsylvania

Country of Study: United States of America

No. of awards offered: 5

Application Procedure: Applicants must complete an application form, which can be downloaded from the Forum's website.

Closing Date: November 12th

Funding: Foundation

No. of awards given last year: 5

No. of applicants last year: 200

Additional Information: Fellows may not normally hold other awards concurrently.

16 Sandgate Lane, Wandsworth Common, London, SW18 3JP,
United Kingdom
Tel: (44) 020 8874 1460
Email: perry.gbennett@gmail.com
Website: www.perryfoundation.co.uk
Contact: Gordon Bennett, Comaony Secretary

The Perry Foundation offers research awards and postgraduate scholarships in agriculture and related disciplines. Research awards are offered to universities and institutes in the UK and are normally for a 3-year period. Postgraduate scholarships are offered to holders of First or Second Class Degrees and are for a 3-year period leading to a PhD. Both research awards and postgraduate scholarships must be undertaken at a university, college or research establishment in the UK.

Perry Postgraduate Scholarships

Subjects: The production and utilization of crops for food and non-food uses, ecologically acceptable and sustainable farming systems, including, in particular, water and nutrient balances, integrated disease and pest control systems for both crops and livestock, socio-economic studies in the occupation and use of land, the rural economy and infrastructure and developments in marketing. Projects must be of definable benefit to UK agriculture.

Purpose: To enable postgraduates undertake research and investigative work in agriculture and related fields and to build up a pool of highly competent researchers in the UK.

Eligibility: Applicants must hold a First or Upper Second Class (Honours) Degrees in appropriate subjects, and must have been offered a place at a university, college or other establishment in the UK that will lead to the award of a PhD.

Level of Study: Doctorate

Type: Postgraduate scholarships

Value: UK£12,000 contribution per year

Length of Study: 3–4 years

Frequency: Annual

Study Establishment: Universities, colleges, research establishments and institutes in the UK

Country of Study: United Kingdom

No. of awards offered: 2–4 per year

Application Procedure: Applicants must write to or email the Foundation Secretary for an application form. Full details will be provided to suitable applicants.

Closing Date: October 31st

Funding: Foundation

No. of awards given last year: 3

No. of applicants last year: 100 +

Additional Information: Projects must be of definable benefit to U.K. agriculture.

Perry Research Awards

Subjects: The production and utilization of crops for food and non-food uses, ecologically acceptable and sustainable farming systems, including, in particular, water and nutrient balances, integrated disease and pest control systems for both crops and livestock, socio-economic studies in the occupation and use of land, the rural economy and infrastructure and developments in marketing. Must be of definable benefit to UK agriculture.

Purpose: To support research projects at research establishments, universities and colleges in the UK and investigative work into agriculture and related fields.

Eligibility: Open to universities, colleges and research establishments in the UK.

Level of Study: Research

Type: Research award

Value: Research awards are normally UK£15,000 per year maximum
Length of Study: Normally 3 years
Frequency: Annual
Study Establishment: Universities, colleges, institutes and research establishments
Country of Study: United Kingdom
No. of awards offered: 2–3, depending on the availability of funds
Application Procedure: Applicants must write to the Foundation Secretary for a brochure, which contains details of the application procedure and application forms. Applications submitted by individuals must be supported by their university, college, institute or other establishment.
Closing Date: October 31st
Funding: Private
No. of awards given last year: 1
No. of applicants last year: 20 +
Additional Information: The research awards must be of definable benefit to U.K. agriculture. Please check website for more details.

PETRO JACYK CENTRAL & EAST EUROPEAN RESOURCE CENTRE (PJRC)

University of Toronto, 130 St. George St., Toronto,
ON, M5S 1A5, Canada
Email: jacyk.program@utoronto.ca
Contact: Petro Jacyk Program for the Study of Ukraine

The PJRC supports the activities of the centre for European, Russian and Eurasian studies, the Department of Slavic Languages and Literatures and the 5 research chairs connected with Estonian, Finnish, Hungarian, Polish History and Ukrainian studies.

Petro Jacyk Program

Subjects: Social sciences and humanities.
Purpose: The objective of the Post-Doctoral Fellowship is to support annually one of the most promising junior scholars studying contemporary Ukraine and thereby to advance academic understanding of Ukrainian politics, culture, and society.
Eligibility: The Petro Jacyk Post-Doctoral Fellowship is available to junior scholars in the social sciences and humanities with a research and teaching focus on contemporary Ukraine. The fellowship is open to recently awarded PhDs (persons holding doctorates for no more than three years at the time of application).
Level of Study: Postdoctorate
Type: Fellowship
Value: CAD \$40,000, which includes payment for teaching a semester-long course, and separately an allowance of up to CAD \$2,500 for research and travel expenses
Length of Study: 1 year
Study Establishment: University of Toronto
Country of Study: Canada
No. of awards offered: 1
Application Procedure: Please send applications by email to: the Foundation at pjef@bellnet.ca and the Petro Jacyk Program for the Study of Ukraine at the University of Toronto at jacyk.program@utoronto.ca simultaneously.
Closing Date: February 1st
Contributor: Petro Jacyk Education Foundation
Additional Information: For more information on the post-doctoral fellowship, please visit our website. http://sites.utoronto.ca/jacyk/postdoctoral_fellowship/call_for_applications.htm.

PFIZER INC.

Pfizer MAP Program, MedPoint Communications, 1603 Orrington Ave, Suite 1900, Evanston, IL, 60201, United States of America
Tel: (1) 877 254 6953
Fax: (1) 847 425 7028

Contact: MAP Program Coordinator

As a reflection of our commitment to the advancement of healthcare, Pfizer Inc. is pleased to support medical innovation in a wide range of discipline through our Medical and Academic Partnership (MAP)

grants and awards. Our Fellowships and Scholar Grants, which offer career-building opportunities for academic researchers in basic, outcomes, and patient-oriented research, are key among these efforts. In addition, Pfizer Visiting Professorships continue to be a resource for in-depth, clinically focused exchange between medical scholars, host organizations and outside scholar-scientists. At Pfizer, we are proud to support the innovators and ideas that help make better treatments and cures possible.

ACCF/Pfizer Visiting Professorships in Cardiovascular Medicine

Subjects: Medicine.
Purpose: To provide opportunities for academic institutions to host a recognized expert for three days of educational exchange.
Eligibility: Open to US medical schools and/or teaching hospitals.
Level of Study: Professional development
Type: Grant
Value: US\$7,500
Length of Study: 3 days
Frequency: Annual
Country of Study: United States of America
No. of awards offered: 8
Application Procedure: See the website.
Closing Date: January 27th
Funding: Corporation
Contributor: The American College of Cardiology Foundation (ACCF) and Pfizer Inc.
Additional Information: Please check website for more details.

AUAER/Pfizer Visiting Professorships in Urology

Subjects: Medicine.
Purpose: To provide opportunities for academic institutions to host a recognized expert for 3 days of educational exchange.
Eligibility: Open to US medical schools and/or teaching hospitals.
Level of Study: Postgraduate, Professional development
Type: Grant
Value: US\$7,500
Frequency: Annual
Country of Study: United States of America
No. of awards offered: Up to 4
Application Procedure: See the website.
Closing Date: February 12th
Funding: Corporation
Contributor: The American Urological Association Education and Research Inc.
Additional Information: Please see website.

Pfizer Atorvastatin Research Awards Program

Subjects: Medicine.
Purpose: To support outstanding investigators at the early stages of their careers in academic research.
Eligibility: Open to US citizens who hold an MD or PhD.
Level of Study: Research
Type: Grant
Value: US\$50,000 per year
Length of Study: 2 years
Frequency: Annual
No. of awards offered: 20
Application Procedure: A proposal must be submitted. See the website for further information.
Closing Date: March 17th
Funding: Corporation

For further information contact:

208 East 51st Street, PBM 173, New York, NY, 10022-6501, United States of America

Pfizer Fellowship in Biological Psychiatry

Subjects: Biological psychiatry.
Purpose: To provide training opportunities for promoting young physicians who wish to pursue research in an academic environment.
Eligibility: Open to applicants who are the citizens of the US.
Level of Study: Postdoctorate
Type: Grant
Value: US\$65,000 per year

Length of Study: 3 years
Frequency: Annual
Application Procedure: A complete form must be submitted.
Closing Date: January 10th
Additional Information: Please check website for more details.

For further information contact:

UF college of medicine, 392-5398, United States of America
Contact: Dr Kristen Madsen, Director, Grants Programme Development

Pfizer Fellowships in Health Literary/Clear Health Communication

Subjects: Medicine, health administration.
Purpose: To fund scientific research in health literary/clear health communication.
Eligibility: Open to U.S. citizens who have undergone at least 1 year of postdoctoral clinical training.
Level of Study: Professional development, Doctorate
Type: Fellowship
Value: Up to \$100,000, paid over 2 years at \$50,000 per year
Length of Study: 2 years
Frequency: Annual
No. of awards offered: 1
Application Procedure: See the website.
Closing Date: February 11th
Funding: Corporation
Additional Information: Please check website for more details.

Pfizer Fellowships in Public Health Overview

Subjects: Health administration.
Purpose: To support the career development of faculty.
Eligibility: Open to U.S. citizens who demonstrate that at least 75 per cent their professional time will be devoted to research.
Level of Study: Postgraduate, Professional development
Type: Grant
Value: Up to \$100,000, paid over 2 years at \$50,000 per year
Length of Study: 2 years
Frequency: Annual
No. of awards offered: Up to 2
Application Procedure: See the website.
Closing Date: February 10th
Additional Information: Please check website for more details.

The Pfizer Fellowships in Rheumatology/Immunology

Subjects: Rheumatology and immunology.
Purpose: To provide training opportunities for promising young physicians who wish to pursue research in an academic environment.
Eligibility: Open to applicants who demonstrate a strong career interest in academic research in rheumatology and immunology.
Level of Study: Postdoctorate, Postgraduate
Type: Fellowship
Value: Up to \$100,000 each, paid at \$50,000 over 2 years
Length of Study: 3 years
Frequency: Annual
Application Procedure: See the website.
Closing Date: Please contact the organization for more information.
Funding: Commercial

For further information contact:

VF College of Medicine, 392-5398
Contact: Dr Kristen Madsen, Director, Grants Programme Development

Pfizer International HDL Research Awards Program

Subjects: Biology.
Purpose: To support outstanding investigators in the field of HDL biology.
Eligibility: Applicant must hold an MD, a PhD, or the equivalent and hold the rank of instructor or assistant professor at the time of application.
Type: Grant
Value: US\$100,000 per year
Length of Study: 2 years
Frequency: Annual

Application Procedure: See the website.
Closing Date: See the website
No. of awards given last year: 14

For further information contact:

International HDL Research Awards, 335 W. 16th Street., 4th Floor, New York, NY, 10011, United States of America
Contact: Grants Co-ordinator

Pfizer Visiting Professorship in Neurology

Subjects: Neurology.
Purpose: To bring new educational value to the institution.
Eligibility: Open to accredited US medical schools and/or affiliated teaching hospitals.
Level of Study: Postgraduate, Professional development
Type: Grant
Value: US\$7,500 each
Length of Study: 3 days
Frequency: Annual
No. of awards offered: Up to 8
Application Procedure: See the website.
Closing Date: August 16th
Contributor: Pfizer Inc.

Pfizer Visiting Professorships in Diabetes

Subjects: Endocrinology.
Purpose: To bring new educational value to the institution.
Eligibility: Open to all accredited US medical schools (allopathic or osteopathic).
Level of Study: Postgraduate, Professional development
Type: Grant
Value: US\$7,500 each
Length of Study: 3 days
Frequency: Annual
No. of awards offered: Up to 4
Application Procedure: See the website.
Closing Date: February 12th
Additional Information: Please check website for more details.

Pfizer Visiting Professorships in Health Literacy

Subjects: Health administration.
Purpose: To facilitate in-depth, educationally focused visits by prominent experts to US healthcare organizations.
Eligibility: Open to US medical schools and/or teaching hospitals.
Level of Study: Professional development
Type: Grant
Value: US\$7,500 each
Length of Study: 3 days
Frequency: Annual
No. of awards offered: 8
Application Procedure: See the website.
Closing Date: February 12th
Funding: Corporation
Additional Information: Please check the website for more details.

Pfizer Visiting Professorships in Oncology

Subjects: Oncology.
Purpose: To advance oncology.
Eligibility: Open to accredited US Medical schools, teaching hospitals and/or academic or community cancer centers.
Level of Study: Postgraduate, Professional development
Type: Grant
Value: US\$7,500
Length of Study: 3 days
Frequency: Annual
No. of awards offered: Up to 4
Application Procedure: See the website.
Closing Date: February 12th
Funding: Corporation
Additional Information: Please check website.

Pfizer Visiting Professorships in Pulmonology

Subjects: Pulmonology.
Purpose: To bring new educational value to the institution.

Eligibility: Open to accredited US Medical schools and/or affiliated teaching hospitals.

Level of Study: Postgraduate, Professional development

Type: Grant

Value: US\$7,500 each

Length of Study: 3 days

Frequency: Annual

No. of awards offered: Up to 4

Application Procedure: See the website.

Closing Date: February 12th

Pfizer Visiting Professorships Program

Subjects: Medicine.

Purpose: To create opportunities for selected institutions to invite a distinguished expert for three days of teaching.

Eligibility: Open to accredited medical schools and/or affiliated teaching hospitals.

Level of Study: Postgraduate

Type: Grant

Value: US\$7,500 each

Frequency: Annual

No. of awards offered: Up to 8

Application Procedure: Applications available online.

Closing Date: February 12th

PHARMACEUTICAL RESEARCH AND MANUFACTURERS OF AMERICA FOUNDATION (PhRMAF)

950 F Street, N.W., Suite 300, Washington, DC, 20004,
United States of America

Tel: (1) 202 572 7756

Fax: (1) 202 572 7799

Email: foundation@phrma.org

Website: www.phrmafoundation.org

Contact: Ms Eileen M McCarron, Executive Director

The Pharmaceutical Research and Manufacturers of America Foundation (PhRMAF) is a non-profit organization, established in 1965 to promote public health through scientific and medical research. It provides funding for research and for the education and training of scientists and physicians who have selected pharmacology, pharmaceuticals, toxicology, informatics or health outcomes as a career choice.

PhRMAF Paul Calabresi Medical Student Research Fellowship

Subjects: Pharmacology, toxicology and clinical pharmacology.

Purpose: To support medical/dental students who have substantial interests in research and teaching careers in pharmacology/clinical pharmacology and who are willing to work full time in a specific research effort within a pharmacology or clinical pharmacology unit.

Eligibility: A candidate must be enrolled in a US medical/dental school and have finished at least 1 year of the school curriculum. Priority consideration will be given to those candidates who project strong commitments to careers in the field of clinical pharmacology. Applicants must be citizens or permanent residents of the US.

Level of Study: Predoctorate, Graduate, Postgraduate

Type: Fellowship

Value: Up to US\$1,500 per month

Length of Study: 2 years

Frequency: Annual

Study Establishment: An accredited school of medicine or dentistry

Country of Study: United States of America

Application Procedure: Requests for the Paul Calabresi Medical Student Research Fellowship are to be submitted online by the appropriate representative of the school or university.

Closing Date: February 1st

Funding: Private

No. of awards given last year: 2

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university. The recipient school is expected to submit

an annual report on the disposition of the funds awarded by PhRMAF. A final report is due within 60 days after the conclusion of the grant. These reports must be signed by the recipient's sponsor. Any publications, speeches, presentations and other materials that stem directly from the research supported by this grant must acknowledge the support of PhRMAF. Three reprints of each publication should be forwarded to PhRMAF for further information visit the Foundation's website.

PhRMAF Postdoctoral Fellowships in Pharmaceutics

Subjects: Pharmaceutics.

Purpose: To encourage graduates to continue to develop and refine their pharmaceutics research skills through formal postdoctoral training.

Eligibility: Open to graduates from PhD programmes in pharmaceuticals. Before an individual is eligible to apply for a PhRMAF award, the applicants must first have a firm commitment from a university in the United States of America. Applicants must be full-time students, and the department's chair is expected to verify the applicant's doctoral candidacy. All applicants must be citizens of the United States of America or permanent residents.

Level of Study: Postdoctorate, Postgraduate

Type: Fellowship

Value: US\$40,000

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: Schools of pharmacy in the United States of America

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must visit the Foundation's website where detailed application requirements are stated and application forms can be downloaded. Applications must include a research plan written by the applicant, the mentor's research record and a description of how the mentored experience will enhance the applicant's career development in pharmaceuticals. Applications are to be submitted online by the appropriate representative of the school or university to the Executive Director at PhRMAF.

Closing Date: September 1st

Funding: Private

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Postdoctoral Fellowships in Health Outcomes Research

Subjects: Health outcomes research, patient-reported outcomes or pharmacoeconomics.

Purpose: To support well-trained graduates from PharmD, MD, and PhD programmes who seek to further develop and refine their research skills through formal postdoctoral training.

Eligibility: Open to full-time students who are citizens or permanent residents of the US. Applicants must have a firm commitment from a university in the US before applying for a PhRMAF award. The department's chair will be expected to verify the applicant's doctoral candidacy.

Level of Study: Graduate, Postdoctorate, Postgraduate

Type: Fellowship

Value: US\$55,000 stipend per year

Length of Study: Up to 2 years

Frequency: Annual

Study Establishment: An accredited school of medicine, pharmacy, dentistry, public health, or nursing

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applications must include a research plan written by the applicant, the mentor's research record and a description of how the mentored experience will enhance the applicant's career development in health outcomes research. Applications are to be submitted online by the appropriate representative of the school or university to the Executive Director at PhRMAF. Detailed application requirements are stated on the Foundation's website where applicants can download an application form and read the specific requirements for each award.

Closing Date: February 1st
Funding: Private
No. of awards given last year: 2

PhRMAF Postdoctoral Fellowships in Informatics

Subjects: Informatics.

Purpose: To support well-trained graduates from PhD programmes who seek to further develop and refine their informatics research skills through formal postdoctoral training.

Eligibility: Open to full-time students who are citizens or permanent residents of the US. Applicants must have a firm commitment from a university in the US before applying for a PhRMAF award. The department's chair will be expected to verify the applicant's doctoral candidacy.

Level of Study: Postdoctorate

Type: Fellowship

Value: US\$40,000 per year

Length of Study: 1–2 years

Frequency: Annual

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must submit an application including a research plan written by the applicant, the mentor's research record and a description of how the mentored experience will enhance the applicant's career development in informatics. Applications are to be submitted online by the appropriate representative of the school or university to the Executive Director of at PhRMAF. Detailed application requirements are stated on the Foundation's website where the applicant can download an application form and read the specific requirements for each award.

Closing Date: September 1st

Funding: Private

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Postdoctoral Fellowships in Pharmacology/Toxicology

Subjects: Pharmacology and toxicology.

Purpose: To facilitate career entry into pharmacology or toxicology at the level of postdoctoral training and to provide funding for recent graduates from PhD programmes who seek to develop research skills through formal postdoctoral training.

Eligibility: Open to applicants with a firm commitment from a university in the US, prior to applying for a PhRMAF award. Applications must be submitted online by an accredited United States of America school and all applicants must be citizens of the US or permanent residents.

Level of Study: Postdoctorate

Type: Fellowship

Value: US\$40,000 in stipend support per year for one or two years

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: An accredited school of medicine, pharmacy, dentistry or veterinary medicine

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must visit the Foundation's website where detailed application requirements are stated and application forms can be downloaded. Applications must be submitted online by the appropriate representative of the school or university to the Executive Director at PhRMAF. An application must include a research plan written by the applicant, a mentor's research record and a description of how the mentored experience will enhance the applicant's career development on pharmacology or toxicology.

Closing Date: September 1st

Funding: Private

No. of awards given last year: 2

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Predoctoral Fellowships in Health Outcomes Research

Subjects: Health outcomes research, patient-reported outcomes and pharmacoeconomics.

Purpose: To support a student's PhD doctoral programme after coursework has been completed and the remaining training activity is the student's research project.

Eligibility: Open to applicants who have a firm commitment from a university in the US. Applicants must be full-time students and the department's chair is expected to verify the applicant's doctoral candidacy. All applicants must be citizens of the US or permanent residents.

Level of Study: Postgraduate

Type: Fellowship

Value: A stipend of US\$25,000 per year, up to US\$1,000 per year may be used for expenses associated with thesis preparation

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: An accredited school of medicine, pharmacy, dentistry, public health or nursing

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applications are to be submitted online by the appropriate representative of the school or university to the Executive Director at PhRMAF. Detailed application requirements are stated on the Foundation's website where the applicant can download an application form and read the specific requirements for each award.

Closing Date: February 1st

Funding: Private

No. of awards given last year: 2

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Predoctoral Fellowships in Pharmaceuticals

Subjects: Pharmaceuticals.

Purpose: To support promising students during their thesis research.

Eligibility: The fellowship programme of predoctoral support is designed to assist full-time, in-residence PhD candidates in the fields of pharmacology or toxicology who are enrolled in USA schools of medicine, pharmacy, dentistry or veterinary medicine. The programme supports full-time advanced students who will have completed the bulk of their pre-thesis requirements (at least 2 years of study) and are engaged in thesis research as PhD. Please check at <http://www.phrmafoundation.org/2015-awards/pre-doctoral-fellowship-awards/pharmaceutics/> for more information on eligibility.

Level of Study: Postgraduate

Type: Fellowship

Value: A stipend of US\$20,000 per year, which includes up to US\$1,000 for expenses associated with thesis research

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: A school of pharmacy

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must visit the Foundation's website where detailed application requirements are stated and application forms can be downloaded. Applications must be submitted online by the appropriate representative of the school or university to the Executive Director of at PhRMAF.

Closing Date: September 1st

Funding: Private

No. of awards given last year: 6

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Predoctoral Fellowships in Pharmacology/Toxicology

Subjects: Pharmacology and toxicology.

Purpose: To support promising students during their thesis research.

Eligibility: Open to advanced students who have completed the bulk of their pre-thesis requirements and are starting their thesis research by the time the award is activated. Students just starting graduate school should not apply. Before an individual is eligible to apply for a PhRMAF award, the applicant must have a firm commitment from a university in the US. The applicant must be a citizen or permanent resident of the US. Please check at <http://www.phrmafoundation.org/2015-awards/pre-doctoral-fellowship-awards/pharmacology-toxicology/> for more information on eligibility.

Level of Study: Predoctorate

Type: Fellowship

Value: A stipend of US\$20,000 per year, which includes up to \$1,000 for expenses associated with thesis research

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: An accredited school of medicine, pharmacy, dentistry or veterinary medicine

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must visit the Foundation's website where detailed application requirements are stated and application forms can be downloaded. Applications must be submitted online by the appropriate representative of the school or university to the Executive Director at PhRMAF.

Closing Date: September 1st

Funding: Private

No. of awards given last year: 7

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Research Starter Grants in Health Outcomes Research

Subjects: Health outcomes research, patient-reported outcomes and pharmacoeconomics.

Purpose: To support individuals beginning independent research careers in academia.

Eligibility: Open to applicants sponsored by the school or university at which the research is to be conducted. Applicants must be appointed to an entry level tenure track or equivalent permanent position in a department or unit responsible for pharmaceutical activities as part of its core mission. All applicants must be citizens or permanent residents of the US. Please check at <http://www.phrmafoundation.org/2015-awards/pre-doctoral-fellowship-awards/health-outcomes/> for more information on eligibility.

Level of Study: Postgraduate, Graduate

Type: Grant

Value: US\$100,000

Length of Study: 1 year

Frequency: Annual

Study Establishment: An accredited school of medicine, pharmacy, dentistry, public health or nursing

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must visit the Foundations' website where detailed application requirements are stated and application forms can be downloaded. Applications must be submitted online by the appropriate representative of the school or university to the Executive Director of Development at PhRMAF. The description of an applicant's career goals and the departmental chair's description of institutional support for the applicant's salary are all important while evaluating an application.

Closing Date: February 1st

Funding: Private

No. of awards given last year: 3

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Research Starter Grants in Informatics

Subjects: Informatics.

Purpose: To offer support to new investigators beginning their independent research careers in academia at the faculty level.

Eligibility: Open to applicants sponsored by the school or university at which the research is to be conducted. Applicants must be appointed online to an entry level tenure track or equivalent permanent position in a department or unit responsible for informatics activities as part of its core mission. All applicants must be citizens or permanent residents of the US.

Level of Study: Graduate, Postdoctorate, Postgraduate

Type: Grant

Value: US\$100,000 per year

Length of Study: 1 year

Frequency: Annual

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Applicants must visit the Foundation's website where detailed application requirements are stated and application forms can be downloaded. Applications must be submitted online by the appropriate representative of the school or university to the Executive Director at PhRMAF. The description of an applicant's career goals and the departmental chair's description of institutional support for the applicant's salary are all important while evaluating an application.

Closing Date: September 1st

Funding: Private

No. of awards given last year: 5

Additional Information: Research projects involving animal subjects require a statement that the project will follow the guidelines set forth by the NIH Guide for the Care and Use of Laboratory Animals and that the project will be performed, reviewed and approved by a faculty committee of the university.

PhRMAF Research Starter Grants in Pharmaceutics

Subjects: Pharmaceutics.

Purpose: To offer support to new investigators beginning their independent research careers in academia.

Eligibility: Open to applicants sponsored by the school or university at which the research is to be conducted. Applicants must be appointed to an entry level tenure track or equivalent permanent position in a department or unit responsible for pharmaceutical activities as part of its core mission. THE PHILLIPS FOUNDATION

1 Massachusetts Avenue, NW Suite 620, Washington, DC, 20001, United States of America
Tel: (1) 202 250 3887 ext 609
Email: jfarley@thephillipsfoundation.org
Website: www.thephillipsfoundation.org
Contact: Vanessa Henderson, Executive Assistant

The Phillips Foundation was founded in 1990. Four years later, we inaugurated our Robert Novak Journalism Fellowship Program to award annual fellowships to young print and online journalists to undertake writing projects supportive of American culture, a free society, and free markets. Our new Fellows are introduced each May at an awards banquet at the National Press Club in Washington, DC before a distinguished audience of journalists, policy leaders and other influential figures.

The Robert Novak Journalism Fellowship Program

Subjects: Journalism (free market, history and law enforcement).
Purpose: To support working print and online journalists who share the same mission as the Foundation.
Eligibility: Open to US citizens who are working journalists with less than 10 years of professional experience in print and online journalism.
Level of Study: Professional development
Type: Fellowships

Value: The Novak Fellowship Program offers full-time \$50,000 fellowships and part-time \$25,000 fellowships. The full-time fellowships include a \$40,000 fellowship grant and up to \$10,000 to reimburse expenses. The part-time fellowships comprise a \$20,000 grant and up to \$5,000 for expenses – See more at www.tfas.org
Length of Study: 1 year
Frequency: Annual
Country of Study: United States of America
Application Procedure: Applicants can download application forms from the website www.novakfellowships.org.
Closing Date: February 11th
Funding: Private
No. of awards given last year: 7
Additional Information: Apply online at www.novakfellowships.org. Please check website for more details.

THE PIERRE ELLIOTT TRUDEAU FOUNDATION

Website: www.popcouncil.org

Contact: Fellowship Co-ordinator

The Population Council is an international non-profit, non-governmental institution that seeks to improve the well being and reproductive health of current and future generations around the world and to help achieve a humane, equitable and sustainable balance between people and resources. The Council conducts biomedical, social science and public health research and helps build research capacities in developing countries.

Biomedical Fellowship Programs

Subjects: Basic and Translational Reproductive Sciences and HIV/AIDS Research.

Eligibility: Candidates for pre-doctoral biomedical fellowships must be engaged in graduate study leading to an advanced degree, MD,

PhD, DVM or equivalent. Candidates for post-doctoral biomedical fellowships must have successfully completed an advanced degree, MD, PhD, DVM or equivalent. If the applicant is other than a US citizen or permanent resident, she/he must have a strong commitment to return to her/his own country.

Level of Study: Predoctorate, Postdoctorate, Professional development, Doctorate

Type: Fellowship

Length of Study: 1–2 years

Frequency: Dependent on funds available

Study Establishment: The Population Council's Centre for Biomedical Research

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Contact the Center for Biomedical Research.

Closing Date: No deadline is set. Please check with the website.

For further information contact:

Center for Biomedical Research, 1230 York Avenue, New York, NY 10065

Fred H Bixby Fellowship Program

Subjects: Population studies in combination with a social science discipline (demography, economics, sociology, anthropology, geography) public health or biomedical sciences.

Purpose: To expand training opportunities by allowing population specialists and biomedical researchers from developing countries to work with experienced mentors in the population Council's international network of offices. Fellowships are awarded to professionals in the early stages of their careers who have demonstrated commitment to return to or stay in a developing country upon completion of their training programs to build capacity in local institutions.

Eligibility: Candidates must have recently completed (within the last 5 years) or anticipate completing a PhD or equivalent degree in the social sciences, public health or biomedical sciences. All applicants should have previous direct experience with either biomedical research, program research or policy-relevant social science research (preferably including one or more peer-reviewed publications). Applications must be legal citizens of a developing country and be proficient in English.

Level of Study: Postdoctorate, Professional development

Type: Fellowship

Value: A monthly stipend based on Fellowship location and years of experience and attendance at one professional meeting per year (including travel). An allowance for relocation and health insurance are also included

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: One of the Population Council's international offices

No. of awards offered: Varies

Application Procedure: Applicants must submit an application form, research proposal and supporting documents in English. The application details and procedures can be found on the Bixby Fellowship website www.popcouncil.org/what/bixby.asp. Requests for information from the Fellowship Coordinator, which can be obtained by emailing to bixbyfellowship@popcouncil.org, should include a brief description of the candidate's academic and professional qualifications, a short statement about their research interests for the proposed Fellowship period and their curriculum vitae.

Closing Date: January 31st

Funding: Foundation

Contributor: Fred H Bixby Foundation

Additional Information: Selection will be based on the recommendation of the Fellowship Committee which consists of distinguished scholars in the field of population. Selection criteria will stress academic excellence, professional experience and prospective contribution to the population field. Prior to submitting a formal application to the Fellowship Office for consideration, Bixby applicants are required to seek sponsorship from at least one Population Council staff mentor, in consultation with the Fellowship coordinator.
